

3rd German Conference on Trilobites

Berlin, October the 08th and 09th 2016

Trilobites - Fascinating marine animals from the Palaeozoic

Saturday, 08th Oct. 2016

12.00 **Opening of the conference**

12.10 **Richard A. Fortey** Natural History Museum London/UK [Main lecture]
Interpreting the life styles of trilobites

13.15 - 13.35 **Coffee break**

13.35 **Infomations**

13.40 **Gerhard Scholtz** Humboldt-Universität zu Berlin, Institut für Biologie
Kristallkegel in den Komplexaugen von Trilobiten? (in German)

14.10 **Klaus Bartl** Glattbach
External and internal values. *A Chotecops* from Bundenbach. (in German)

14.30 **Stefan Liebermann** Woltersdorf
Some Findings of Homalonotid Trilobites from the Baltoscandian faunal province.
(in German)

14.50 - 15.50 **Coffee break**

15.50 **Hans-Hartmut Krueger** Museum für Naturkunde Berlin
The preparation of trilobites from glacial erratics: a resume. (in German)

16.25 **Paul Freitag** Rostock
Trilobites of the Russian Ordovician around Saint Petersburg
– Completely without a Fake!? (in German)

16.50 **Jan Ove R. Ebbestad¹**, Anette Högström, Magne Høyberget, Wendy L. Taylor and Sören Jensen
¹Museum of Evolution, Uppsala University, Uppsala Sweden
Trilobites from the North: lower Cambrian olenelloids from the Digermulen Peninsula,
Arctic Norway.

17.10 **Tobias Surawski** Berlin
Trilobites in glacial erratics of Baltic Sea limestone from south of Berlin. (in German)

17.35 - 18.35 **Coffee break**

18.35 **Brigitte Schoenemann** Universität zu Köln, Dept. of Zoology
The analysis of trilobite eyes and its relevance for the understanding of the evolution of
vision. (in German)

19.10 **Adrian Popp** Meppen
Ordovician proetid trilobites from Baltoscandia - a perspective. (in German)

19.40 **Holger Hanff** Dahnsdorf
Tretaspis seticornis in glacial erratics of the Baltic Sea limestone from Ziezow.
(in German)

around 20.00 **Dinner**

Sunday, 09th Oct. 2016

9.00 **Opening**

9.05 **Petr Budil¹**, Jiří Frýda, Brian D. E. Chatterton, Joan Corbacho and Václav Vokáč
¹Czech Geological Survey, Praha, Czech Republic
Intraspecific variability in trilobite *Acanthopyge (A.) haueri* (Barrande, 1846) from the Middle Devonian (Eifelian) of the Barrandian area (Czech Republic).

9.30 **Peter Müller¹** & Gerhard Hahn ¹Freilingen
Abberant genal spines on Mississippian trilobites. (in German)

9.55 **Ulrich Münder** Lübeck
Pore canals in tubercles of calymenids. (in German)

10.20 **Stephan Helling** Inst. f. Geologie u. Paläontologie, Westfälische Wilhelms-Universität Münster
Trilobites (Asteropyginae, Odontochilinae & Homalonotinae) from the Pragian of Aïn-Al-Aliliga (western Meseta, NW Morocco). (in German)

10.40 **Jens Koppka** Porrentruy/Schweiz
Healed shell injuries of *Flexicalymene retrorsa* from the Ordovician of Ohio, USA. (in German)

11.05 – 12.05 **Coffee break**

12.05 **Oldřich Fatka¹** & Vladislav Kozák ¹Charles University, Institute of Geology and Palaeontology, Prague, Czech Republic
Hypostomes in Cambrian agnostids from the Barrandian area (Czech Republic)

12.25 **Paul Freitag** Rostock
Preparation of trilobites from erratic boulders consisting of Ludibundus limestone. (in German)

12.45 **Frank Rudolph** Wankendorf
Angelin's „Palaeontologia Scandinavica" (in German)

13.10 **Andries Weug** Gründau
Black Cat Mountain, an inside view of the quarry. (in German)

13.35 – 14.05 **Coffee break**

14.05 **Helje Pärnaste** Institute of Geology, Tallin University of Technology, Tallin/Estland
Enrollment of the earliest trilobites.

14.25 **Heinrich Schöning** Schwalmstadt
Four rare Trilobites from Glacial Erratics of the Middle Ordovician. (in German)

14.55 **Hans-Jürgen Schmütz** Laboe
Brantevik – an Eldorado for Agnostid Hunters. (in German)

15.15 **Michael Zwanzig** Berlin
Fringe regeneration in *Bohemoharpes* after an injury (in German)

about 15.40 **End of the lectures**
